RESEARCH PROFILE

Applied development, education, and labor economist specializing in fragile and conflict-affected settings. Research uses causal inference, survey microdata, administrative data, and geocoded data to study climate shocks, conflict, household welfare, child development, and labor-market outcomes. Experience spans academic research, monitoring and evaluation, grant data systems, and evidence-based policy reporting.

RESEARCH FIELDS

Development economics; education economics; labor economics; household and child welfare; digital transformation; climate shocks; conflict and fragility; causal inference and program evaluation.

JOB MARKET PAPER

Digital Tools and Economic Resilience: ICT Usage and Labor Market Outcomes in Palestine

Solo-authored. This paper uses Palestinian panel microdata to estimate the effect of ICT usage on labor-market outcomes and household economic resilience. The empirical strategy combines individual fixed effects, reverse-causality tests, and an instrumental variable approach. Under review at [Telecommunications Policy](#).

EDUCATION

Doctor of Philosophy (PhD), Kobe University, Japan | 2023 - Sept. 2026

Master of Economics, Kobe University, Japan | 2023

Master of Anthropology and Development Studies, KU Leuven, Belgium | 2019

Bachelor of Education, English Language, Al-Quds Open University, Palestine | 2016

RESEARCH AND PROFESSIONAL EXPERIENCE

Lead Researcher, Palestine Economic Policy Research Institute (MAS) | Jun. 2026–Present

- Under a UNICEF funded project: Contributing to the costing analysis of the draft Palestinian Disability Law and the development of a comprehensive, costed, and phased implementation framework to support the Ministry of Social Development and relevant stakeholders in operationalizing the law.

Teaching Assistant, Al-Quds University, Palestine | Jan. 2026 - May. 2026

- Assisted in teaching the Right to Employment course (post-graduate level), including supporting classroom instruction and grading students' exams and assignments.

Monitoring and Evaluation Officer, Al-Quds University, Palestine | Mar. 2025 - Jan. 2026

- Evaluated the effect of teachers' advanced degrees on student performance in Palestine, managing the full data cycle from research design to analysis and reporting.
- Translated empirical findings into clear reports and evidence-based recommendations for academic and policy stakeholders.

Intern, Education Cannot Wait (Remote), UNICEF, Switzerland | Mar. 2025 - Aug. 2025

- Managed grants data by entering, organizing, and standardizing information in the ECW grants database.
- Tracked grantee reports and reviewed financial and narrative submissions for completeness and compliance with UNICEF standards.
- Uploaded approved documentation, supported database integrity, and helped streamline grant-naming conventions.
- Contributed to the ECW knowledge hub by organizing resources to support institutional learning.

Research Assistant, Kobe University, Japan | Mar. 2023 - Mar. 2025

- Worked on two empirical papers on conflict, climate change, and agricultural production in Palestine: Olive Oil Under Fire and Rising Temperatures, Falling Yields.
- Contributed to data collection, cleaning, econometric analysis, drafting, and manuscript revision.

Teaching Assistant, Al-Quds University, Palestine | Sept. 2022 - Feb. 2023

- Assisted in teaching the Evolving Global Economy course (graduate level), including teaching, supporting classroom instruction and grading students' exams and assignments.

Research Assistant, Al-Quds University, Palestine | Apr. 2022 - Apr. 2024

- Contributed to research on female labor force participation across East Jerusalem, the West Bank, and Gaza, including data collection, analysis, and manuscript preparation.
- Supported a second project on climate change and sectoral labor reallocation in Palestine, applying quantitative methods and preparing the final manuscript.

TECHNICAL SKILLS AND METHODS

Econometric methods: Instrumental variables/2SLS; difference-in-differences; triple differences; regression discontinuity; propensity score matching; fixed effects; cluster-robust inference.

Software and tools: Stata (advanced); QGIS/spatial data analysis (intermediate); R (working knowledge); Python (basic).

Data experience: Household surveys, labor force surveys, administrative education data, grants data, geocoded conflict and climate data.

LANGUAGES

Arabic: Native. **English:** Fluent; excellent writing and reading skills.
